CREDIT COMPLIANCE

Glazing Factor Calculation

Achieve direct line of sight to the outdoor environment via vision glazing between 2'-6" to 7'-6" above finish floor for the building occupants in 90% of all regularly occupied areas. Determine the area with the direct line of sight by totaling the regularly occupied square footage that meets the following criteria:

- In plan view, the area is within sight lines drawn from perimeter vision glazing.
- In section view, a direct sight line can be drawn from the area to perimeter vision glazing.

SUPPORT DOCUMENTS REQUIRED

- Drawing showing line of sight from interior spaces through exterior windows in both plan and section views
- Spreadsheet to demonstrate overall access to views from occupied spaces. Include occupied space (sq ft) and area (sq ft) of each occupied space with direct access to views.
- Provide a narrative describing any special occupancy areas, which have been excluded from compliance.
