Request: 1) Installation of 2 new doors because the existing doors are not original.

Applicant: CECELIA YEEDA

Representative: N/A

Date Filed: March 11, 2009

Staff Recommendation: 1) Doors - Approve - The proposed work is partially consistent with the criteria for replacing doors in the preservation criteria Section 5.3 that states "replacement doors .. must express mullion size, light configuration, and material to match the existing" and section 5.1 states that "historic doors .. must remain intact .. except that doors .. may be replaced if necessary due to damage or deterioration". The proposed replacements are partially consistent based on the following finding of facts: a.) The existing doors are a 15-light window that is typical to the Craftsman houses in the area. Since the time when this item was last denied, the applicant has found the building permits from the time when the house was converted from a single-family home to a duplex, which is verified by Sanborn maps. b.) Originally this was a single family home; it is impossible to know whether these are the original doors or not on the structure. c.) The proposed doors are compatible to the Craftsman style, but are also discernibly new.

Task Force Recommendation: 1) Doors - Deny - Current doors may be original and they match the other existing doors on the street of contemporary houses, per section 5.1, Proposed style of replacement doors is inappropriate because the height of the windows and the placement of the four panels is not consistent with other doors in Junius Heights. Split decision.

Request: 1) Eight inch block wall along sidewalk with mondo grass. Work installed 15 years ago.
2) Add flagstone around tree. Work installed 15 years ago.
Applicant: James Eckart
Representative: N/A
Date Filed: March 3, 2009
Staff Recommendation:

1) Eight inch block wall along sidewalk with mondo grass. Work completed. - Deny - With the finding of fact that raised concrete block planting wall is not appropriate to this house or the district. Remove all concrete components. The proposed work does not meet the standards in City Code Section 51A-4.501(g)(6)(C)(i) on the basis that the raised concrete planting area would have an adverse effect on the structure and the district. The original lawn should be restored.
2) Add flagstone around tree. Work completed. - Deny - With the finding of fact that the rock installed between the front walk and driveway is not consistent with preservation criteria 18369 Section 11(b)(1). The proposed work does not meet the standards in City Code Section 51A-4.501(g)(6)(C)(i) the rock has an adverse affect on the structure and the district.
